

1 Coding

```
def foo(bar):  
    print 'Eat my ' + bar
```

```
1 def foo(bar='Chocolate'):  
2     rage = 'Did you eat my ' + bar + '?!'  
3     print rage
```

Remember to

import grav

ty

2 Citing

This is a citation[1]. And you can use the citation verbally as well, according to Kiss et al. [1].

3 Mathemagic

An inline equation is written $x^3 = 8$. You can also use this

$$x^5 + 4x^2 = 1337x \tag{1}$$

to write a 1337 equation.
